

INTERNATIONAL *March* OF THE LIVING

August 14, 2017

The International March of the Living strongly condemns the vicious acts and words of antisemitism, Hitler-glorification and racism which took place in Charlottesville, Virginia.

America, the Land of the Free, must not tolerate acts of hatred, intolerance and bigotry of any kind or nature.

The International March of the Living is dedicated to teaching the lessons of the Holocaust and is committed to educating its participants on the need to stand against social injustice and acts of antisemitism whenever and wherever they occur.
